Notice of Motions (Non-Tipperary County Council Functions)

9.1 Cllr S. Morris (Ref: 2349)

For Decision

There are 82 children with Spina Bifida and/or Hydrocephalus currently requiring urgent Orthopaedic intervention. This was brought to the attention of the Minister for Health Stephen Donnelly's in December 2020 (1). However, no action has been instigated by the Minister to resolve this matter and these children

deteriorate. Lack of surgical intervention has caused their limbs and bodies to become deformed and maimed. Some of these children's legs are so badly affected that the soles of their feet permanently rub together causing open sores and bleeding.

Children who have the ability to walk are losing or have lost that ability due to the absence of timely surgical management. Others who are manual wheelchair users, due to the same issue are unable to self-propel themselves effectively leaving them immobile. The lack of timely surgical intervention means that effectively these children end up requiring more complex surgeries and failing that amputation of limbs.

I am calling on the County Council to write to the Minister of Health, Stephen Donnelly and fast track these children for surgical review as a matter of urgency. We are also calling on the Minister for Health to ensure that provision of services is made to Disabled Children within elective hospital settings as well as acute hospital settings to avoid a repeat of this situation in the future.
