

FOI File No	Date Received	Requester Category	Brief Description of Request	Date decision issued	Decision
TCC/154/2023	08/12/2023	Solicitor on behalf of member of the public	All documentation, including all notes, complaints, motions, notification of accidents, records, memorandum reports, correspondence or any other documents of whatsoever nature to include electronic documents relating to complaints about the road surface in William Street, Cashel since January 2019.	08/01/2024	Granted
TCC/155/2023	08/12/2023	Member of public	We are seeking all related information/documents to the "Performance Enhancement Strategy" where Greencoat Renewables decided to equip the turbines with Nordex' "Xtended Power" Upgrade in 2022 to create more power from the turbines, effectively creating and emitting more noises into the community and having an effect on the amenity of the area. The Nordex N90 generators have been upgraded from 2.5 Mw to 2.650 Mw.	10/01/2024	Refused
TCC/156/2023	14/12/2023	Member of public	Copies of all submissions (both formal and informal), correspondence, documentation, records, reports, and executive orders which informed the decision-making process that culminated in the inclusion of the landholdings identified as Parcel IDs TYLA00002802, TYLA00002803, TYLA00002788 and TYLA00004984 within the draft mapping prepared by the Local Authority in respect of the Residential Zoned Land Tax. Copies of all submissions (both formal and informal), correspondence, documentations, records, reports, and executive orders which informed the decision-making process that culminated in the inclusion of the landholdings identified as Parcel IDs TYLA00002802, TYLA00002803, TYLA00002788 and TYLA0004984 within the final mapping prepared by the Local Authority in respect of the Residential Zoned Land Tax.		
TCC/158/2023	19/12/2023	Business	I wish to ascertain the following in relation to the R689, Fethard Road – see map attached. I am confining the information request here to a 500m section of road between Halfway House carpark marked A and the end point of the survey marked B and the ITM coordinates. 1) Details of all tests carried out on this section of road between the first of January 2011 and the 13th July 2012. 2) All reports generated on any tests conducted on the road to include any resurfacing of the road between 13th July 2012 and 3rd May 2013. 3) All reports generate to justify resurfacing of approximately 250m section of road to include all attendance on site of the Area Engineer, Works Overseer and any other road representative of South Tipperary County Council to justify the repairs to that section of road. 4) Details of all works done on the section of road to include the opening of water tables or drainage inlets between: a) 1st January 2012 and 13th July 2012 and b) 13th July and 5th May 2015. 5) The background to which a SCRIM test was carried out on this section of road in August 2011 and specifically: a) Who ordered this specialised SCRIM test on this localised section of the R689. b) Who, within Tipperary County Council analysed the results of this SCRIM test when received. c) Any reports generated following the SCRIM test results to justify the localised resurfacing works. There is clearly an overlap between this question and the resurfacing of the localised section of 250m of road. I need to understand what reports were generated justifying these remedial works.		
TCC/159/2023	22/12/2023	Member of public	I formally request full details of all properties within the county where there is no known owner [that is no owner known to the county council].
