

# Bealtaine Festival

An Age & Opportunity **arts** initiative

# Welcome to Tipperary Bealtaine 2026

Each year in the month of May, Bealtaine is presented as an annual nationwide festival celebrating the arts and creativity as we age. The festival is an initiative of Age & Opportunity, Tipperary Arts Office and the Tipperary Library Service are delighted to work together once again to present a full and varied programme of events and activities across the county.

Tipperary Arts Office, with support from the Arts Council, puts out an open call each year to professional artists based in Tipperary to propose projects or events targeted at older people. In 2026, these events include a range of workshops and longer-term engagement projects based in community and care settings, each of which will culminate in a showcase during the month of May. We are grateful to Creative Ireland for financial support for two of these engagement projects. We continue our Programmes in Care Settings initiative this year, which includes an expansion of the much-loved Music on Tour programme, the continuation of the Memory Box scheme in association with the Museum of Hidden History and the presentation of a circus show in association with Creative Places Tipperary Town which is part of a Bealtaine tour.

The Libraries run an extensive programme of activities across all fourteen branches in the county. We are delighted to have the support of Tipperary ETB who are providing some workshops in all our branches throughout May. We also acknowledge the ongoing support of Tipperary Age Friendly, Creative Ireland and Healthy Ireland without which we could not provide access to so many free events.

2026 is the final year celebrating the theme Lust for Life, based on Iggy Pop's iconic punk-era song celebrating life's dreams, ambitions, intoxications and excesses. We hope you will join in and attend some events, embracing your own Lust for Life this year!

Based on the themes of Hearth and Home and Pastimes, the memory boxes are full of items that people will associate with bygone days (examples include an RTÉ guide, a plate featuring JFK and the Pope, a fishing net, posters, admission tickets and programmes etc.) and stimulate a lot of conversation and reminiscence. Participants are encouraged to handle the items and enjoy the recollections.

Leisa will deliver sessions in Borrisokane and Cashel Day Care Centres and two more centres across the county.

**Leisa Gray** is a textile and visual artist, maker and singer. She has worked extensively with museum and gallery collections as well as coordinating large scale community projects.

## Through the Time

Through the Time was a participatory art project developed for the clients of Cahir Day Care Centre in which artist Magdalena Rudnicka invited participants to explore memories, lived experiences, and personal milestones through creative expression.

Focusing on the theme of time, individuals reflected on their life stories and translated them into visual and material forms. The project involved eight participants and was facilitated by the artist in close collaboration with the Centre's staff.

Over twelve two-hour weekly sessions between February and April, participants experimented with drawing, painting, printmaking, and fabric-based techniques. Each participant created a personal "photo" album combining images, textures, and short written reflections that expressed their identity and memories. In addition to these individual works, the group collaborated to create a collective artwork displayed at Cahir Day Care Centre.

The programme concluded with a launch event at the Centre. Family members, friends, and other service users were invited to attend, celebrating the participants' creative achievements and strengthening community connection through shared artistic experience.

**Magdalena Rudnicka** is a community artist based in South Tipperary. Originally from Poland, she has lived in Ireland for over 20 years. She works collaboratively with communities to create inclusive art projects that celebrate lived experience, creativity, and connection with a strong focus on working with people with disabilities.

# The Memory Keep: A Life with Many Chapters Woven in Fabric and Thread

What if your most precious memories were held, not just in your mind, but in the very fabric of your life? The Tudor Artisan Hub invited community members to The Memory Keep, a unique Bealtaine Festival project blending textile art, storytelling, and sustainable upcycling.

Under the guidance of creative practitioners Linda Fahy, Sheila Wood, and Liz Martin, participants became 'Story Weavers.' By repurposing 'anchors' of the past, such as buttons, ribbons, or vintage textiles and upcycling materials through sewing, felting, and various fabric arts, they stitched life chapters into a tactile legacy. This journey of teaching and learning transformed Story Keepers into Story Weavers, creating fabric pages as a gift from themselves, to themselves, a way to safeguard the things they treasure most.

The Memory Keep is a creative social prescription fostering connection and well-being. This collaborative journey of co-creation culminates in a special showcase where visitors are invited to witness these cherished chapters. Spectators can also witness pieces in the making, hear the stories behind the creations, and learn how sustainable materials keep memories alive.

## Show That We Care

A poetry and visual arts project for carers and people in need of care.

Tipperary Arts Office is supporting Clonmel Applefest in exploring the intricacies and dynamics of care with carers and service users. The project aims to create connections, bringing carers and service users to the fore, making the work done behind the scenes, its value and importance within our society more visible.

Working both with carers and service users, visual artist Paul Bokslag will use wax resist techniques to create visual artworks to unveil what it is we care for and about, while Sean O'Connor will unpack the theme further with an artistic exploration of care introducing participants to the Japanese poetry shortform of Tanka and Haiku.

Further workshops will take place later in the year and the final outcome will be a publication with a selection of images and poems to be launched during Applefest 2026.

## Small daily rituals

How do the simple daily practices that we repeat regularly help us make meaning and connect us to ourselves and others? In a series of workshops, visual artist and textile maker, Leisa Gray invites groups and individuals in Cloughjordan and Nenagh to ask 'What is your small daily ritual?'

Through the workshops, participants will explore the theme and make a new pieces of artwork in response to the theme. Participants will be supported to make something personal to them using the materials and techniques they would most enjoy. Workshops include print making, textiles and collage, and conversations will help people decide what they'd like to express creatively about their own small daily rituals. Leisa will run two sets of workshops, three at the MacDonagh Museum in Cloughjordan and four at Nenagh Arts Centre across the months of April and May.

Artworks created during both sets of workshops will be displayed in an exhibition at the Thomas MacDonagh Museum in Cloughjordan from 26th May until 30th June.

An event celebrating the participants and their creations will take place at the Thomas MacDonagh Museum at 11am on Tuesday 26th May.
